To All it May Concern:

As to the proposed High/John Street Village District plan, I feel the need to thank Mr. Ouellette for his interest and consideration. The concept is not new, but never before considered, advanced this far. This opportunity being unfortunately, advanced this far. This opportunity being presented on December 2 hopefully will be recognized as a means to restrain the uncomtemplated sprawl of downtown Clinton. At the same time it would preserve some of its original character. Other towns see the importance of this in their neighborhoods. The pervasive attitude that "anything goes" in Clinton helps no one and must be dissuaded.

I offer Mr. Ouellette hearty congratulations in his endeavor

Most sincerely
Mary Jane Fritz
